

Recipe 12.1 Test making domain objects from a ResultSet.....	239
Recipe 12.2 Verify your SQL commands.....	243
Recipe 12.3 Test your database schema.....	245
Recipe 12.4 Ensure your tests clean up their JDBC resources.....	251
Recipe 12.5 Test your production code cleans up JDBC resources.....	259
Recipe 12.6 Manage external data in your test fixture.....	260
Recipe 12.7 Manage test data in a shared database.....	261
Recipe 12.8 Test permissions when deploying stored procedures.....	263
Recipe 12.9 Test legacy JDBC code without the database.....	264
Recipe 12.10 Test legacy JDBC code with the database.....	266
Recipe 12.11 Test your transactions for isolation.....	267
Recipe 12.12 Test stored procedures.....	268
Recipe 12.13 Test stored procedures written in Java.....	270
Recipe 12.14 Avoid running out of object IDs.....	271
Chapter 13. Working with Data Framework Components.....	272
Recipe 13.1 Test your prevalent system without files.....	273
Chapter 14. Testing Enterprise Java Beans.....	274
Recipe 14.1 Test a session bean outside the container.....	275
Recipe 14.2 Test a session bean in a simulated container.....	277
Recipe 14.3 Test a session bean in a real container.....	278
Recipe 14.4 Test CMP entity beans in the container.....	279
Recipe 14.5 Testing CMP entity beans without the container.....	280
Recipe 14.6 Test BMP entity beans without the container.....	281
Recipe 14.7 Test JMS message processing logic.....	282
Recipe 14.8 Test JMS components without a container.....	283
Recipe 14.9 Test JMS components in a live container.....	284
Recipe 14.10 Test a message-driven bean in the container.....	285
Recipe 14.11 Test a message-driven bean outside the container.....	286
Chapter 15. Testing Web Applications.....	287
Recipe 15.1 Test your application with different web browsers.....	288
Chapter 16. Testing a Struts application.....	289
Recipe 16.1 Test your navigation rules without running your application.....	290
Recipe 16.2 Test navigation rules entirely outside Struts.....	291
Chapter 17. Managing Mock Objects.....	293
Chapter 18. Other Frameworks.....	294
Chapter 19. Testing Design Patterns.....	295
Recipe 19.1 Test an Observer (Event Listener).....	296
Recipe 19.2 Test an Observable (Event Source).....	297
Recipe 19.3 Test a Singleton.....	298
Recipe 19.4 Test a Factory.....	299
Chapter 20. Customizing and extending JUnit.....	300
Recipe 20.1 Set up your fixture once for the entire suite.....	301
Recipe 20.2 Reuse your custom assertions.....	302
Chapter 21. Performance and stress testing.....	303
Chapter 22. Testing nonsequential code.....	304
Chapter 23. Testing your source code.....	305
