When to Apply Domain Design

- **For Simple systems**

  - No worries. It fits inside a person's head. REST

- **For Medium systems**

  - No worries. Hire smart people so that ..

  - It fits inside a person's head. Oh and write loads of *Documentation! ***

- **For Complex systems**

  - Starting is ok. It initially still fits inside a person's head.

  - Then Documents help a while

  - But As It Grows …

** Documentation has an unknown expiration date.
And may be wrong to begin with.
Other restrictions may apply.

Typical "Agile" project progression
